6. The next National Interdepartmental Seminar (NIS) begins on 13 September. To date we have three nominees: one NPIC, one OC, and one OS. We carried an announcement in the 21 July Newsletter and plan to insert an item on this subject in the 11 August Newsletter.

7. [REDACTED] FE, has been invited to participate, all expenses paid, in an intensive Optacon training project at The Seeing Eye, Inc. facilities in Morristown, New Jersey, from 13 to 24 September. The Optacon has been under development for over six years and enables a totally blind person to read printed matter via a tactile signal generated from an optical reader. 11. Another full-time academic student was briefed this week -- by telephone. [] OBGI, has been on LWOP for a year at the University of Kansas continuing his graduate studies in Geography. His two-semester sponsored program begins 4 September when OBGI places him on the payroll again.

12. Earlier this year, at the request of EUR, we asked for a Finnish language tutorial at FSI to begin in early September. All arrangements were made but two weeks ago the requirement was cancelled by EUR because the employee was urgently needed in the field. Again this spring, at the request of AF, we enrolled an employee [] in the 23 August Swahili class at FSI. We asked the student to come for a briefing in AIR prior to the 9 August Area Seminar only to find that the training had been cancelled. This office had not been notified; neither had CCS! Both instances lower our "credibility" quotient at FSI.

13. On 3 August Nancy spent approximately one hour with [] discussing the Instructor Training Branch files. This was a result of Nancy's request to retire some records from ITB. No schedule had been set up for that particular Branch.
